

# **WATERMAIN VALVE EXERCISING WORK in MOOREFIELD & DRAYTON**

**JUNE 28 to JUNE 30, 2021**

The Ontario Clean Water Agency (OCWA), will be performing watermain maintenance work for the Township, beginning June 28, 2021. This work will not affect the water supply but may stir up some settlement in the pipes which may cause reduced flows or slight discoloration being noticed at the faucets. If this occurs, OCWA recommends homeowners simply remove and clean the filters at the end of their faucets and flush the lines.

If homeowners still experience issues, they may call the Township for assistance at 519-638-3313.
