This policy is intended to meet the requirements of Accessibility Standards for Customer Service, Ontario Regulation 429/07 under the Accessibility for Ontarians with Disabilities Act, 2005, and applies to the provision of goods and services to the public or other third parties, not to the goods themselves.

All goods and services provided by Township of Mapleton shall follow the principles of dignity, independence, integration and equal opportunity.

2.1.2 Definitions

Assistive Device - Is a technical aid, communication device or other instrument that is used to maintain or improve the functional abilities of people with disabilities. Personal assistive devices are typically devices that customers bring with them such as a wheelchair, walker or a personal oxygen tank that might assist in hearing, seeing, communicating, moving, breathing, remembering and/or reading.

Disability - The term disability as defined by the Accessibility for Ontarians with Disabilities Act, 2005, and the Ontario Human Rights Code, refers to:

- Any degree of physical disability, infirmity, malformation or disfigurement that is caused by bodily injury, birth defect or illness and, without limiting the generality of the foregoing, includes diabetes mellitus, epilepsy, a brain injury, any degree of paralysis, amputation, lack of physical co-ordination, blindness or visual impediment, deafness or hearing impediment, muteness or speech impediment, or physical reliance on a guide dog or other animal or on a wheelchair or other remedial appliance or device;
- A condition of mental impairment or a developmental disability;
- A learning disability, or dysfunction in one or more of the processes involved in understanding or using symbols or spoken language;
- A mental disorder; or

Guide Dog - Is a highly trained working dog that has been trained at one of the facilities listed in Ontario Regulation 58 under the Blind Persons' Rights Act, to provide mobility, safety and increased independence for people who are blind.

Service Animal - An animal is a service animal for a person with a disability if:

- It is readily apparent that the animal is used by the person for reasons relating to his or her disability; or
- If the person provides a letter from a physician or nurse confirming that the person requires the animal for reasons relating to the disability.

Section:	Accessibility		
Policy #	2.1	Date Approved:	December 1, 2019

Service Dog - A dog other than a guide dog for the blind is a service dog if:

- It is readily apparent to an average person that the dog functions as a service dog for a person with a medical disability; or
- The person who requires the dog can provide on request a letter from a physician or nurse confirming that the person requires a service dog.

Support Person: A support person means, in relation to a person with a disability, another person who accompanies him or her in order to help with communication, mobility, personal care, medical needs or access to goods and services.

2.1.3 Guidelines

In accordance with the Accessibility Standards for Customer Service, this policy addresses the following:

- C. The Use of Guide Dogs, Service Animals and Service Dogs
- D. The Use of Support Persons
- E. Notice of Service Disruptions
- F. Customer Feedback
- G. Training
- H. Notice of Availability and Format of Required Documents

2.1.3.1 The Provision of Goods and Services to Persons with Disabilities

Township of Mapleton will make every reasonable effort to ensure that its policies, practices and procedures are consistent with the principles of dignity, independence, integration and equal opportunity by:

- Ensuring that all customers receive the same value and quality;
- Allowing customers with disabilities to do things in their own ways, at their own pace when accessing goods and services as long as this does not present a safety risk;
- Using alternative methods when possible to ensure that customers with disabilities have access to the same services, in the same place and in a similar manner;
- Taking into account individual needs when providing goods and services; and
- Communicating in a manner that takes into account the customer's disability.

2.1.3.2 The Use of Assistive Devices

Persons with disabilities may use their own assistive devices as required when accessing goods or services provided by Township of Mapleton.

Section:	Accessibility		
Policy #	2.1	Date Approved:	December 1, 2019

In cases where the assistive device presents a safety concern or where accessibility might be an issue, other reasonable measures will be used to ensure the access of goods and services. For example, open flames and oxygen tanks cannot be near one another. Therefore, the accommodation of a customer with an oxygen tank may involve ensuring the customer is in a location that would be considered safe for both the customer and business. Or, where elevators are not present and where an individual requires assistive devices for the purposes of mobility, service will be provided in a location that meets the needs of the customer. \

2.1.3.3 Guide Dogs, Service Animals and Service Dogs

A customer with a disability that is accompanied by guide dog, service animal or service dog will be allowed access to premises that are open to the public unless otherwise excluded by law. "No pet" policies do not apply to guide dogs, service animals and/or service dogs.

Food Service Areas

A customer with a disability that is accompanied by guide dog or service dog will be allowed access to food service areas that are open to the public unless otherwise excluded by law. Other types of service animals are not permitted into food service areas in accordance with the Health Protection and Promotion Act.

Exclusion Guidelines

If a guide dog, service animal or service dog is excluded by law (see applicable laws below) Township of Mapleton will offer alternative methods to enable the person with a disability to access goods and services, when possible (for example, securing the animal in a safe location and offering the guidance of an employee).

Applicable Laws

Food Safety and Quality Act 2001, Ontario Regulation 31/05: Animals not intended for slaughter or to be euthanized are not allowed in any area or room of a meat plant. It also makes an exception for service dogs to allow them in those areas of a meat plant where food is served, sold or offered for sale to customers and in those areas that do not contain animals or animal parts and are not used for the receiving, processing, packaging, labelling, shipping, handling or storing of animals or parts of animals.

The Health Protection and Promotion Act, Ontario Regulation 562 Section 60, normally does not allow animals in places where food is manufactured, prepared, processed, handled, served, displayed, stored, sold or offered for sale. It does allow guide dogs and service dogs to go into places where food is served, sold or offered for sale. However, other types of service animals are not included in this exception.

Dog Owners' Liability Act, Ontario

If there is a conflict between a provision of this Act or of a regulation under this or any other Act relating to banned breeds and a provision of a By-law passed by a municipality relating to these breeds, the provision that is more restrictive in relation to controls or bans on these breeds prevails.
